SUMMARY

Frontend engineer with 4 years of experience building fast, accessible web apps in React and TypeScript. I like taking rough product ideas and turning them into interfaces people enjoy using.

SKILLS

React · TypeScript · JavaScript · CSS/Tailwind · Node.js · REST APIs · Figma · Testing (Jest/RTL) · Git · Performance tuning

EXPERIENCE

Frontend Engineer — Northwind Labs

Jun 2023 - Present

Bengaluru, India

- Led rebuild of the checkout flow in React, cutting median load time by 38%
- Introduced a shared component library adopted across 5 product teams
- Mentored 2 junior engineers through their first six months

Frontend Developer — Pixel & Co

Jul 2021 - May 2023

Remote

- Built and shipped 12+ client-facing features from Figma to production
- Migrated a legacy jQuery app to React, reducing bug reports by 45%

PROJECTS

Routewise

React, Node.js, Mapbox

A trip-planning app that generates day-by-day itineraries from a single prompt.
github.com/aditisharma/routewise

Habitloop

React, Supabase

A minimal habit tracker with streaks and weekly email summaries.
github.com/aditisharma/habitloop

EDUCATION

B.E., Computer Science

2017 — 2021

RV College of Engineering
Graduated with distinction

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services (2023)
